Annual Bonus Plan Structure

HR Knowledge Hub | Compensation and Benefits

Owner: Sam Whitfield | Last updated: October 30, 2026

Documents how company performance, team performance, and individual performance combine to determine the annual bonus payout multiplier.

Key Points

- Company performance multiplier is set by the executive team based on revenue and margin targets.
- Individual multiplier ranges from 0.5x to 1.5x based on performance rating.
- Bonus payouts are prorated for employees hired after July 1.
- Sales roles are covered by a separate commission plan, not this bonus structure.
