Supplier Corrective Action Request - Packaging Defect

Manufacturing Knowledge Hub | Supply Chain and Logistics

Owner: Omar Haddad | Last updated: October 30, 2026

Formal corrective action request issued to a packaging supplier following repeated damage found during receiving inspection.

Key Points

- Containment required 100% inspection of incoming lots for the next three shipments.
- Supplier's root cause pointed to an under-specified corner protector on the pallet design.
- Corrective action included an updated pallet packaging specification and drop testing.
- Supplier status remains on the improvement plan pending two clean shipment cycles.
