Positioning guide for competing against Northstar Analytics, including common objections and proof points to use in competitive deals.

## Key Points

- Northstar's strength is reporting; our strength is real-time data freshness.
- Common objection: 'Northstar is cheaper at list price' - counter with total cost of ownership data.
- Win rate against Northstar is highest when a technical evaluation is included.
- Reference customers who switched from Northstar are available through the deal desk.
