Freight Cost Analysis - Q2 - Section 1: Executive Summary & Scope

Analysis of inbound and outbound freight spend by lane and carrier, identifying cost reduction opportunities for the upcoming quarter. Section 1 (Executive Summary & Scope) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Defines the operational charter, scope boundaries, and executive accountability.

Operational requirement 1.1: Expedited freight accounted for a disproportionate share of total freight spend. Secondary control 1.2: Consolidating two weekly less-than-truckload shipments into one reduced cost per unit.

- Expedited freight accounted for a disproportionate share of total freight spend.
- Consolidating two weekly less-than-truckload shipments into one reduced cost per unit.
- Section 1 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Freight Cost Analysis - Q2 Gate 1	Omar Haddad	3 business days	Active
Freight Cost Analysis - Q2 Gate 2	Omar Haddad	10 business days	Monitored

Freight Cost Analysis - Q2 - Section 2: Architecture & Process Flow

Analysis of inbound and outbound freight spend by lane and carrier, identifying cost reduction opportunities for the upcoming quarter. Section 2 (Architecture & Process Flow) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Maps end-to-end process stages, handoff gates, and system-of-record integrations.

Operational requirement 2.1: Consolidating two weekly less-than-truckload shipments into one reduced cost per unit. Secondary control 2.2: A regional carrier renegotiation is projected to reduce lane costs by roughly 7%.

- Consolidating two weekly less-than-truckload shipments into one reduced cost per unit.
- A regional carrier renegotiation is projected to reduce lane costs by roughly 7%.
- Section 2 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Freight Cost Analysis - Q2 Gate 1	Omar Haddad	3 business days	Active
Freight Cost Analysis - Q2 Gate 2	Omar Haddad	10 business days	Monitored
Sec-2	Omar Haddad	3 business days	Stage 2 Verified

Freight Cost Analysis - Q2 - Section 3: Governance Standards & Controls

Analysis of inbound and outbound freight spend by lane and carrier, identifying cost reduction opportunities for the upcoming quarter. Section 3 (Governance Standards & Controls) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Establishes mandatory compliance controls, approval thresholds, and audit evidence.

Operational requirement 3.1: A regional carrier renegotiation is projected to reduce lane costs by roughly 7%. Secondary control 3.2: Recommendations are being reviewed with finance before the next carrier contract renewal.

- A regional carrier renegotiation is projected to reduce lane costs by roughly 7%.
- Recommendations are being reviewed with finance before the next carrier contract renewal.
- Section 3 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Freight Cost Analysis - Q2 Gate 1	Omar Haddad	3 business days	Active
Freight Cost Analysis - Q2 Gate 2	Omar Haddad	10 business days	Monitored
Sec-3	Omar Haddad	10 business days	Stage 3 Verified

Freight Cost Analysis - Q2 - Section 4: Operational KPIs & Benchmarks

Analysis of inbound and outbound freight spend by lane and carrier, identifying cost reduction opportunities for the upcoming quarter. Section 4 (Operational KPIs & Benchmarks) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Tracks baseline performance, target SLAs, and quarterly benchmark progression.

Operational requirement 4.1: Recommendations are being reviewed with finance before the next carrier contract renewal. Secondary control 4.2: Expedited freight accounted for a disproportionate share of total freight spend.

- Recommendations are being reviewed with finance before the next carrier contract renewal.
- Expedited freight accounted for a disproportionate share of total freight spend.
- Section 4 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Freight Cost Analysis - Q2 Gate 1	Omar Haddad	3 business days	Active
Freight Cost Analysis - Q2 Gate 2	Omar Haddad	10 business days	Monitored
Sec-4	Omar Haddad	5 business days	Stage 4 Verified

Freight Cost Analysis - Q2 - Section 5: Roles, Responsibilities & RACI

Analysis of inbound and outbound freight spend by lane and carrier, identifying cost reduction opportunities for the upcoming quarter. Section 5 (Roles, Responsibilities & RACI) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Clarifies ownership across accountable executives, operational leads, and reviewers.

Operational requirement 5.1: Expedited freight accounted for a disproportionate share of total freight spend. Secondary control 5.2: Consolidating two weekly less-than-truckload shipments into one reduced cost per unit.

- Expedited freight accounted for a disproportionate share of total freight spend.
- Consolidating two weekly less-than-truckload shipments into one reduced cost per unit.
- Section 5 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Freight Cost Analysis - Q2 Gate 1	Omar Haddad	3 business days	Active
Freight Cost Analysis - Q2 Gate 2	Omar Haddad	10 business days	Monitored
Sec-5	Omar Haddad	3 business days	Stage 5 Verified

Freight Cost Analysis - Q2 - Section 6: Standard Operating Procedures

Analysis of inbound and outbound freight spend by lane and carrier, identifying cost reduction opportunities for the upcoming quarter. Section 6 (Standard Operating Procedures) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Provides step-by-step execution checklists, intake criteria, and verification gates.

Operational requirement 6.1: Consolidating two weekly less-than-truckload shipments into one reduced cost per unit. Secondary control 6.2: A regional carrier renegotiation is projected to reduce lane costs by roughly 7%.

- Consolidating two weekly less-than-truckload shipments into one reduced cost per unit.
- A regional carrier renegotiation is projected to reduce lane costs by roughly 7%.
- Section 6 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Freight Cost Analysis - Q2 Gate 1	Omar Haddad	3 business days	Active
Freight Cost Analysis - Q2 Gate 2	Omar Haddad	10 business days	Monitored
Sec-6	Omar Haddad	10 business days	Stage 6 Verified

Freight Cost Analysis - Q2 - Section 7: Risk Register & Mitigations

Analysis of inbound and outbound freight spend by lane and carrier, identifying cost reduction opportunities for the upcoming quarter. Section 7 (Risk Register & Mitigations) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Catalogs operational, compliance, and delivery risks alongside preventive mitigations.

Operational requirement 7.1: A regional carrier renegotiation is projected to reduce lane costs by roughly 7%. Secondary control 7.2: Recommendations are being reviewed with finance before the next carrier contract renewal.

- A regional carrier renegotiation is projected to reduce lane costs by roughly 7%.
- Recommendations are being reviewed with finance before the next carrier contract renewal.
- Section 7 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Freight Cost Analysis - Q2 Gate 1	Omar Haddad	3 business days	Active
Freight Cost Analysis - Q2 Gate 2	Omar Haddad	10 business days	Monitored
Sec-7	Omar Haddad	5 business days	Stage 7 Verified

Freight Cost Analysis - Q2 - Section 8: Appendix, Lineage & Sign-off

Analysis of inbound and outbound freight spend by lane and carrier, identifying cost reduction opportunities for the upcoming quarter. Section 8 (Appendix, Lineage & Sign-off) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Records document lineage, governance metadata, version history, and owner sign-off.

Operational requirement 8.1: Recommendations are being reviewed with finance before the next carrier contract renewal. Secondary control 8.2: Expedited freight accounted for a disproportionate share of total freight spend.

- Recommendations are being reviewed with finance before the next carrier contract renewal.
- Expedited freight accounted for a disproportionate share of total freight spend.
- Section 8 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Freight Cost Analysis - Q2 Gate 1	Omar Haddad	3 business days	Active
Freight Cost Analysis - Q2 Gate 2	Omar Haddad	10 business days	Monitored
Sec-8	Omar Haddad	3 business days	Stage 8 Verified
