Skills Gap Analysis and Career Pathing Framework - Section 1: Executive Summary & Scope

Summarizes the skills gap analysis conducted across engineering and operations and proposes career pathing tracks to close the gaps. Section 1 (Executive Summary & Scope) applies to Learning and Development within HR Knowledge Hub and is maintained by Alicia Gomez. Defines the operational charter, scope boundaries, and executive accountability.

Operational requirement 1.1: Cloud infrastructure and data analysis were the two largest identified skill gaps. Secondary control 1.2: Career pathing tracks are offered for both individual contributor and management tracks.

- Cloud infrastructure and data analysis were the two largest identified skill gaps.
- Career pathing tracks are offered for both individual contributor and management tracks.
- Section 1 review cadence is tracked by Alicia Gomez under Learning and Development governance.

Skills Gap Analysis and Career Pathing Framework - Section 2: Architecture & Process Flow

Summarizes the skills gap analysis conducted across engineering and operations and proposes career pathing tracks to close the gaps. Section 2 (Architecture & Process Flow) applies to Learning and Development within HR Knowledge Hub and is maintained by Alicia Gomez. Maps end-to-end process stages, handoff gates, and system-of-record integrations.

Operational requirement 2.1: Career pathing tracks are offered for both individual contributor and management tracks. Secondary control 2.2: Learning stipends of $1,500 per year support external certifications aligned to the gap areas.

- Career pathing tracks are offered for both individual contributor and management tracks.
- Learning stipends of $1,500 per year support external certifications aligned to the gap areas.
- Section 2 review cadence is tracked by Alicia Gomez under Learning and Development governance.

Skills Gap Analysis and Career Pathing Framework - Section 3: Governance Standards & Controls

Summarizes the skills gap analysis conducted across engineering and operations and proposes career pathing tracks to close the gaps. Section 3 (Governance Standards & Controls) applies to Learning and Development within HR Knowledge Hub and is maintained by Alicia Gomez. Establishes mandatory compliance controls, approval thresholds, and audit evidence.

Operational requirement 3.1: Learning stipends of $1,500 per year support external certifications aligned to the gap areas. Secondary control 3.2: Progress against pathing goals is reviewed during mid-year check-ins.

- Learning stipends of $1,500 per year support external certifications aligned to the gap areas.
- Progress against pathing goals is reviewed during mid-year check-ins.

Skills Gap Analysis and Career Pathing Framework - Section 4: Operational KPIs & Benchmarks

Summarizes the skills gap analysis conducted across engineering and operations and proposes career pathing tracks to close the gaps. Section 4 (Operational KPIs & Benchmarks) applies to Learning and Development within HR Knowledge Hub and is maintained by Alicia Gomez. Tracks baseline performance, target SLAs, and quarterly benchmark progression.

Operational requirement 4.1: Progress against pathing goals is reviewed during mid-year check-ins. Secondary control 4.2: Cloud infrastructure and data analysis were the two largest identified skill gaps.

- Progress against pathing goals is reviewed during mid-year check-ins.
- Cloud infrastructure and data analysis were the two largest identified skill gaps.

Skills Gap Analysis and Career Pathing Framework - Section 5: Roles, Responsibilities & RACI

Summarizes the skills gap analysis conducted across engineering and operations and proposes career pathing tracks to close the gaps. Section 5 (Roles, Responsibilities & RACI) applies to Learning and Development within HR Knowledge Hub and is maintained by Alicia Gomez. Clarifies ownership across accountable executives, operational leads, and reviewers.

Operational requirement 5.1: Cloud infrastructure and data analysis were the two largest identified skill gaps. Secondary control 5.2: Career pathing tracks are offered for both individual contributor and management tracks.

- Cloud infrastructure and data analysis were the two largest identified skill gaps.
- Career pathing tracks are offered for both individual contributor and management tracks.
- Section 5 review cadence is tracked by Alicia Gomez under Learning and Development governance.

Skills Gap Analysis and Career Pathing Framework - Section 6: Standard Operating Procedures

Summarizes the skills gap analysis conducted across engineering and operations and proposes career pathing tracks to close the gaps. Section 6 (Standard Operating Procedures) applies to Learning and Development within HR Knowledge Hub and is maintained by Alicia Gomez. Provides step-by-step execution checklists, intake criteria, and verification gates.

Operational requirement 6.1: Career pathing tracks are offered for both individual contributor and management tracks. Secondary control 6.2: Learning stipends of $1,500 per year support external certifications aligned to the gap areas.

- Career pathing tracks are offered for both individual contributor and management tracks.
- Learning stipends of $1,500 per year support external certifications aligned to the gap areas.
