Safety Incident Report - Near Miss Forklift Interaction - Section 1: Executive Summary & Scope

Incident report documenting a near-miss between a forklift and a pedestrian aisle crossing, with corrective actions. Section 1 (Executive Summary & Scope) applies to Production Operations within Manufacturing Knowledge Hub and is maintained by Dana Fitzgerald. Defines the operational charter, scope boundaries, and executive accountability.

Operational requirement 1.1: Root cause identified limited visibility at the aisle intersection. Secondary control 1.2: Corrective action added a convex mirror and updated floor marking at the intersection.

- Root cause identified limited visibility at the aisle intersection.
- Corrective action added a convex mirror and updated floor marking at the intersection.
- Section 1 review cadence is tracked by Dana Fitzgerald under Production Operations governance.

Control Area	Owner	Target SLA	Verification Status
Production Operations	Dana Fitzgerald	5 business days	Verified
Safety Incident Report - Nea Gate 1	Dana Fitzgerald	3 business days	Active
Safety Incident Report - Nea Gate 2	Dana Fitzgerald	10 business days	Monitored

Safety Incident Report - Near Miss Forklift Interaction - Section 2: Architecture & Process Flow

Incident report documenting a near-miss between a forklift and a pedestrian aisle crossing, with corrective actions. Section 2 (Architecture & Process Flow) applies to Production Operations within Manufacturing Knowledge Hub and is maintained by Dana Fitzgerald. Maps end-to-end process stages, handoff gates, and system-of-record integrations.

Operational requirement 2.1: Corrective action added a convex mirror and updated floor marking at the intersection. Secondary control 2.2: All forklift operators completed a refresher on pedestrian right-of-way rules.

- Corrective action added a convex mirror and updated floor marking at the intersection.
- All forklift operators completed a refresher on pedestrian right-of-way rules.
- Section 2 review cadence is tracked by Dana Fitzgerald under Production Operations governance.

Control Area	Owner	Target SLA	Verification Status
Production Operations	Dana Fitzgerald	5 business days	Verified
Safety Incident Report - Nea Gate 1	Dana Fitzgerald	3 business days	Active
Safety Incident Report - Nea Gate 2	Dana Fitzgerald	10 business days	Monitored
Sec-2	Dana Fitzgerald	3 business days	Stage 2 Verified

Safety Incident Report - Near Miss Forklift Interaction - Section 3: Governance Standards & Controls

Incident report documenting a near-miss between a forklift and a pedestrian aisle crossing, with corrective actions. Section 3 (Governance Standards & Controls) applies to Production Operations within Manufacturing Knowledge Hub and is maintained by Dana Fitzgerald. Establishes mandatory compliance controls, approval thresholds, and audit evidence.

Operational requirement 3.1: All forklift operators completed a refresher on pedestrian right-of-way rules. Secondary control 3.2: Follow-up walkthrough scheduled 30 days after corrective actions were implemented.

- All forklift operators completed a refresher on pedestrian right-of-way rules.
- Follow-up walkthrough scheduled 30 days after corrective actions were implemented.
- Section 3 review cadence is tracked by Dana Fitzgerald under Production Operations governance.

Control Area	Owner	Target SLA	Verification Status
Production Operations	Dana Fitzgerald	5 business days	Verified
Safety Incident Report - Nea Gate 1	Dana Fitzgerald	3 business days	Active
Safety Incident Report - Nea Gate 2	Dana Fitzgerald	10 business days	Monitored
Sec-3	Dana Fitzgerald	10 business days	Stage 3 Verified

Safety Incident Report - Near Miss Forklift Interaction - Section 4: Operational KPIs & Benchmarks

Incident report documenting a near-miss between a forklift and a pedestrian aisle crossing, with corrective actions. Section 4 (Operational KPIs & Benchmarks) applies to Production Operations within Manufacturing Knowledge Hub and is maintained by Dana Fitzgerald. Tracks baseline performance, target SLAs, and quarterly benchmark progression.

Operational requirement 4.1: Follow-up walkthrough scheduled 30 days after corrective actions were implemented. Secondary control 4.2: Root cause identified limited visibility at the aisle intersection.

- Follow-up walkthrough scheduled 30 days after corrective actions were implemented.
- Root cause identified limited visibility at the aisle intersection.
- Section 4 review cadence is tracked by Dana Fitzgerald under Production Operations governance.

Control Area	Owner	Target SLA	Verification Status
Production Operations	Dana Fitzgerald	5 business days	Verified
Safety Incident Report - Nea Gate 1	Dana Fitzgerald	3 business days	Active
Safety Incident Report - Nea Gate 2	Dana Fitzgerald	10 business days	Monitored
Sec-4	Dana Fitzgerald	5 business days	Stage 4 Verified

Safety Incident Report - Near Miss Forklift Interaction - Section 5: Roles, Responsibilities & RACI

Incident report documenting a near-miss between a forklift and a pedestrian aisle crossing, with corrective actions. Section 5 (Roles, Responsibilities & RACI) applies to Production Operations within Manufacturing Knowledge Hub and is maintained by Dana Fitzgerald. Clarifies ownership across accountable executives, operational leads, and reviewers.

Operational requirement 5.1: Root cause identified limited visibility at the aisle intersection. Secondary control 5.2: Corrective action added a convex mirror and updated floor marking at the intersection.

- Root cause identified limited visibility at the aisle intersection.
- Corrective action added a convex mirror and updated floor marking at the intersection.
- Section 5 review cadence is tracked by Dana Fitzgerald under Production Operations governance.

Control Area	Owner	Target SLA	Verification Status
Production Operations	Dana Fitzgerald	5 business days	Verified
Safety Incident Report - Nea Gate 1	Dana Fitzgerald	3 business days	Active
Safety Incident Report - Nea Gate 2	Dana Fitzgerald	10 business days	Monitored
Sec-5	Dana Fitzgerald	3 business days	Stage 5 Verified

Safety Incident Report - Near Miss Forklift Interaction - Section 6: Standard Operating Procedures

Incident report documenting a near-miss between a forklift and a pedestrian aisle crossing, with corrective actions. Section 6 (Standard Operating Procedures) applies to Production Operations within Manufacturing Knowledge Hub and is maintained by Dana Fitzgerald. Provides step-by-step execution checklists, intake criteria, and verification gates.

Operational requirement 6.1: Corrective action added a convex mirror and updated floor marking at the intersection. Secondary control 6.2: All forklift operators completed a refresher on pedestrian right-of-way rules.

- Corrective action added a convex mirror and updated floor marking at the intersection.
- All forklift operators completed a refresher on pedestrian right-of-way rules.
- Section 6 review cadence is tracked by Dana Fitzgerald under Production Operations governance.

Control Area	Owner	Target SLA	Verification Status
Production Operations	Dana Fitzgerald	5 business days	Verified
Safety Incident Report - Nea Gate 1	Dana Fitzgerald	3 business days	Active
Safety Incident Report - Nea Gate 2	Dana Fitzgerald	10 business days	Monitored
Sec-6	Dana Fitzgerald	10 business days	Stage 6 Verified

Safety Incident Report - Near Miss Forklift Interaction - Section 7: Risk Register & Mitigations

Incident report documenting a near-miss between a forklift and a pedestrian aisle crossing, with corrective actions. Section 7 (Risk Register & Mitigations) applies to Production Operations within Manufacturing Knowledge Hub and is maintained by Dana Fitzgerald. Catalogs operational, compliance, and delivery risks alongside preventive mitigations.

Operational requirement 7.1: All forklift operators completed a refresher on pedestrian right-of-way rules. Secondary control 7.2: Follow-up walkthrough scheduled 30 days after corrective actions were implemented.

- All forklift operators completed a refresher on pedestrian right-of-way rules.
- Follow-up walkthrough scheduled 30 days after corrective actions were implemented.
- Section 7 review cadence is tracked by Dana Fitzgerald under Production Operations governance.

Control Area	Owner	Target SLA	Verification Status
Production Operations	Dana Fitzgerald	5 business days	Verified
Safety Incident Report - Nea Gate 1	Dana Fitzgerald	3 business days	Active
Safety Incident Report - Nea Gate 2	Dana Fitzgerald	10 business days	Monitored
Sec-7	Dana Fitzgerald	5 business days	Stage 7 Verified

Safety Incident Report - Near Miss Forklift Interaction - Section 8: Quality Assurance & Audits

Incident report documenting a near-miss between a forklift and a pedestrian aisle crossing, with corrective actions. Section 8 (Quality Assurance & Audits) applies to Production Operations within Manufacturing Knowledge Hub and is maintained by Dana Fitzgerald. Specifies sampling frequencies, inspection tolerances, and nonconformance workflows.

Operational requirement 8.1: Follow-up walkthrough scheduled 30 days after corrective actions were implemented. Secondary control 8.2: Root cause identified limited visibility at the aisle intersection.

- Follow-up walkthrough scheduled 30 days after corrective actions were implemented.
- Root cause identified limited visibility at the aisle intersection.
- Section 8 review cadence is tracked by Dana Fitzgerald under Production Operations governance.

Control Area	Owner	Target SLA	Verification Status
Production Operations	Dana Fitzgerald	5 business days	Verified
Safety Incident Report - Nea Gate 1	Dana Fitzgerald	3 business days	Active
Safety Incident Report - Nea Gate 2	Dana Fitzgerald	10 business days	Monitored
Sec-8	Dana Fitzgerald	3 business days	Stage 8 Verified

Safety Incident Report - Near Miss Forklift Interaction - Section 9: Exception Handling & Escalations

Incident report documenting a near-miss between a forklift and a pedestrian aisle crossing, with corrective actions. Section 9 (Exception Handling & Escalations) applies to Production Operations within Manufacturing Knowledge Hub and is maintained by Dana Fitzgerald. Outlines severity tiers, response SLAs, and cross-functional escalation paths.

Operational requirement 9.1: Root cause identified limited visibility at the aisle intersection. Secondary control 9.2: Corrective action added a convex mirror and updated floor marking at the intersection.

- Root cause identified limited visibility at the aisle intersection.
- Corrective action added a convex mirror and updated floor marking at the intersection.
- Section 9 review cadence is tracked by Dana Fitzgerald under Production Operations governance.

Control Area	Owner	Target SLA	Verification Status
Production Operations	Dana Fitzgerald	5 business days	Verified
Safety Incident Report - Nea Gate 1	Dana Fitzgerald	3 business days	Active
Safety Incident Report - Nea Gate 2	Dana Fitzgerald	10 business days	Monitored
Sec-9	Dana Fitzgerald	10 business days	Stage 9 Verified

Safety Incident Report - Near Miss Forklift Interaction - Section 10: Cross-Functional Dependencies

Incident report documenting a near-miss between a forklift and a pedestrian aisle crossing, with corrective actions. Section 10 (Cross-Functional Dependencies) applies to Production Operations within Manufacturing Knowledge Hub and is maintained by Dana Fitzgerald. Documents upstream and downstream team dependencies and service-level commitments.

Operational requirement 10.1: Corrective action added a convex mirror and updated floor marking at the intersection. Secondary control 10.2: All forklift operators completed a refresher on pedestrian right-of-way rules.

- Corrective action added a convex mirror and updated floor marking at the intersection.
- All forklift operators completed a refresher on pedestrian right-of-way rules.
- Section 10 review cadence is tracked by Dana Fitzgerald under Production Operations governance.

Control Area	Owner	Target SLA	Verification Status
Production Operations	Dana Fitzgerald	5 business days	Verified
Safety Incident Report - Nea Gate 1	Dana Fitzgerald	3 business days	Active
Safety Incident Report - Nea Gate 2	Dana Fitzgerald	10 business days	Monitored
Sec-10	Dana Fitzgerald	5 business days	Stage 10 Verified

Safety Incident Report - Near Miss Forklift Interaction - Section 11: Continuous Improvement Roadmap

Incident report documenting a near-miss between a forklift and a pedestrian aisle crossing, with corrective actions. Section 11 (Continuous Improvement Roadmap) applies to Production Operations within Manufacturing Knowledge Hub and is maintained by Dana Fitzgerald. Schedules quarterly optimization milestones, automation targets, and capability reviews.

Operational requirement 11.1: All forklift operators completed a refresher on pedestrian right-of-way rules. Secondary control 11.2: Follow-up walkthrough scheduled 30 days after corrective actions were implemented.

- All forklift operators completed a refresher on pedestrian right-of-way rules.
- Follow-up walkthrough scheduled 30 days after corrective actions were implemented.
- Section 11 review cadence is tracked by Dana Fitzgerald under Production Operations governance.

Control Area	Owner	Target SLA	Verification Status
Production Operations	Dana Fitzgerald	5 business days	Verified
Safety Incident Report - Nea Gate 1	Dana Fitzgerald	3 business days	Active
Safety Incident Report - Nea Gate 2	Dana Fitzgerald	10 business days	Monitored
Sec-11	Dana Fitzgerald	3 business days	Stage 11 Verified

Safety Incident Report - Near Miss Forklift Interaction - Section 12: Appendix, Lineage & Sign-off

Incident report documenting a near-miss between a forklift and a pedestrian aisle crossing, with corrective actions. Section 12 (Appendix, Lineage & Sign-off) applies to Production Operations within Manufacturing Knowledge Hub and is maintained by Dana Fitzgerald. Records document lineage, governance metadata, version history, and owner sign-off.

Operational requirement 12.1: Follow-up walkthrough scheduled 30 days after corrective actions were implemented. Secondary control 12.2: Root cause identified limited visibility at the aisle intersection.

- Follow-up walkthrough scheduled 30 days after corrective actions were implemented.
- Root cause identified limited visibility at the aisle intersection.
- Section 12 review cadence is tracked by Dana Fitzgerald under Production Operations governance.

Control Area	Owner	Target SLA	Verification Status
Production Operations	Dana Fitzgerald	5 business days	Verified
Safety Incident Report - Nea Gate 1	Dana Fitzgerald	3 business days	Active
Safety Incident Report - Nea Gate 2	Dana Fitzgerald	10 business days	Monitored
Sec-12	Dana Fitzgerald	10 business days	Stage 12 Verified
