Customer Complaint 8D Report - Bracket Assembly - Section 1: Executive Summary & Scope

Eight-discipline problem-solving report addressing a customer field complaint on a bracket assembly fatigue failure. Section 1 (Executive Summary & Scope) applies to Quality Assurance within Manufacturing Knowledge Hub and is maintained by Linda Park. Defines the operational charter, scope boundaries, and executive accountability.

Operational requirement 1.1: D3 containment: all finished goods inventory of the affected lot was quarantined. Secondary control 1.2: D4 root cause: weld penetration depth fell below spec on a subset of fixtures.

- D3 containment: all finished goods inventory of the affected lot was quarantined.
- D4 root cause: weld penetration depth fell below spec on a subset of fixtures.
- Section 1 review cadence is tracked by Linda Park under Quality Assurance governance.

Control Area	Owner	Target SLA	Verification Status
Quality Assurance	Linda Park	5 business days	Verified
Customer Complaint 8D Report Gate 1	Linda Park	3 business days	Active
Customer Complaint 8D Report Gate 2	Linda Park	10 business days	Monitored

Customer Complaint 8D Report - Bracket Assembly - Section 2: Architecture & Process Flow

Eight-discipline problem-solving report addressing a customer field complaint on a bracket assembly fatigue failure. Section 2 (Architecture & Process Flow) applies to Quality Assurance within Manufacturing Knowledge Hub and is maintained by Linda Park. Maps end-to-end process stages, handoff gates, and system-of-record integrations.

Operational requirement 2.1: D4 root cause: weld penetration depth fell below spec on a subset of fixtures. Secondary control 2.2: D5 corrective action: fixture rework and weld parameter revalidation completed.

- D4 root cause: weld penetration depth fell below spec on a subset of fixtures.
- D5 corrective action: fixture rework and weld parameter revalidation completed.
- Section 2 review cadence is tracked by Linda Park under Quality Assurance governance.

Control Area	Owner	Target SLA	Verification Status
Quality Assurance	Linda Park	5 business days	Verified
Customer Complaint 8D Report Gate 1	Linda Park	3 business days	Active
Customer Complaint 8D Report Gate 2	Linda Park	10 business days	Monitored
Sec-2	Linda Park	3 business days	Stage 2 Verified

Customer Complaint 8D Report - Bracket Assembly - Section 3: Governance Standards & Controls

Eight-discipline problem-solving report addressing a customer field complaint on a bracket assembly fatigue failure. Section 3 (Governance Standards & Controls) applies to Quality Assurance within Manufacturing Knowledge Hub and is maintained by Linda Park. Establishes mandatory compliance controls, approval thresholds, and audit evidence.

Operational requirement 3.1: D5 corrective action: fixture rework and weld parameter revalidation completed. Secondary control 3.2: D8 closure confirmed after 60 days of clean field performance data.

- D5 corrective action: fixture rework and weld parameter revalidation completed.
- D8 closure confirmed after 60 days of clean field performance data.
- Section 3 review cadence is tracked by Linda Park under Quality Assurance governance.

Control Area	Owner	Target SLA	Verification Status
Quality Assurance	Linda Park	5 business days	Verified
Customer Complaint 8D Report Gate 1	Linda Park	3 business days	Active
Customer Complaint 8D Report Gate 2	Linda Park	10 business days	Monitored
Sec-3	Linda Park	10 business days	Stage 3 Verified

Customer Complaint 8D Report - Bracket Assembly - Section 4: Operational KPIs & Benchmarks

Eight-discipline problem-solving report addressing a customer field complaint on a bracket assembly fatigue failure. Section 4 (Operational KPIs & Benchmarks) applies to Quality Assurance within Manufacturing Knowledge Hub and is maintained by Linda Park. Tracks baseline performance, target SLAs, and quarterly benchmark progression.

Operational requirement 4.1: D8 closure confirmed after 60 days of clean field performance data. Secondary control 4.2: D3 containment: all finished goods inventory of the affected lot was quarantined.

- D8 closure confirmed after 60 days of clean field performance data.
- D3 containment: all finished goods inventory of the affected lot was quarantined.
- Section 4 review cadence is tracked by Linda Park under Quality Assurance governance.

Control Area	Owner	Target SLA	Verification Status
Quality Assurance	Linda Park	5 business days	Verified
Customer Complaint 8D Report Gate 1	Linda Park	3 business days	Active
Customer Complaint 8D Report Gate 2	Linda Park	10 business days	Monitored

Customer Complaint 8D Report - Bracket Assembly - Section 5: Roles, Responsibilities & RACI

Eight-discipline problem-solving report addressing a customer field complaint on a bracket assembly fatigue failure. Section 5 (Roles, Responsibilities & RACI) applies to Quality Assurance within Manufacturing Knowledge Hub and is maintained by Linda Park. Clarifies ownership across accountable executives, operational leads, and reviewers.

Operational requirement 5.1: D3 containment: all finished goods inventory of the affected lot was quarantined. Secondary control 5.2: D4 root cause: weld penetration depth fell below spec on a subset of fixtures.

- D3 containment: all finished goods inventory of the affected lot was quarantined.
- D4 root cause: weld penetration depth fell below spec on a subset of fixtures.
- Section 5 review cadence is tracked by Linda Park under Quality Assurance governance.

Control Area	Owner	Target SLA	Verification Status
Quality Assurance	Linda Park	5 business days	Verified
Customer Complaint 8D Report Gate 1	Linda Park	3 business days	Active
Customer Complaint 8D Report Gate 2	Linda Park	10 business days	Monitored
Sec-5	Linda Park	3 business days	Stage 5 Verified

Customer Complaint 8D Report - Bracket Assembly - Section 6: Standard Operating Procedures

Eight-discipline problem-solving report addressing a customer field complaint on a bracket assembly fatigue failure. Section 6 (Standard Operating Procedures) applies to Quality Assurance within Manufacturing Knowledge Hub and is maintained by Linda Park. Provides step-by-step execution checklists, intake criteria, and verification gates.

Operational requirement 6.1: D4 root cause: weld penetration depth fell below spec on a subset of fixtures. Secondary control 6.2: D5 corrective action: fixture rework and weld parameter revalidation completed.

- D4 root cause: weld penetration depth fell below spec on a subset of fixtures.
- D5 corrective action: fixture rework and weld parameter revalidation completed.
- Section 6 review cadence is tracked by Linda Park under Quality Assurance governance.

Control Area	Owner	Target SLA	Verification Status
Quality Assurance	Linda Park	5 business days	Verified
Customer Complaint 8D Report Gate 1	Linda Park	3 business days	Active
Customer Complaint 8D Report Gate 2	Linda Park	10 business days	Monitored
Sec-6	Linda Park	10 business days	Stage 6 Verified

Customer Complaint 8D Report - Bracket Assembly - Section 10: Cross-Functional Dependencies

Eight-discipline problem-solving report addressing a customer field complaint on a bracket assembly fatigue failure. Section 10 (Cross-Functional Dependencies) applies to Quality Assurance within Manufacturing Knowledge Hub and is maintained by Linda Park. Documents upstream and downstream team dependencies and service-level commitments.

Operational requirement 10.1: D4 root cause: weld penetration depth fell below spec on a subset of fixtures. Secondary control 10.2: D5 corrective action: fixture rework and weld parameter revalidation completed.

- D4 root cause: weld penetration depth fell below spec on a subset of fixtures.
- D5 corrective action: fixture rework and weld parameter revalidation completed.
- Section 10 review cadence is tracked by Linda Park under Quality Assurance governance.

Control Area	Owner	Target SLA	Verification Status
Quality Assurance	Linda Park	5 business days	Verified
Customer Complaint 8D Report Gate 1	Linda Park	3 business days	Active
Customer Complaint 8D Report Gate 2	Linda Park	10 business days	Monitored
Sec-10	Linda Park	5 business days	Stage 10 Verified

Customer Complaint 8D Report - Bracket Assembly - Section 11: Continuous Improvement Roadmap

Eight-discipline problem-solving report addressing a customer field complaint on a bracket assembly fatigue failure. Section 11 (Continuous Improvement Roadmap) applies to Quality Assurance within Manufacturing Knowledge Hub and is maintained by Linda Park. Schedules quarterly optimization milestones, automation targets, and capability reviews.

Operational requirement 11.1: D5 corrective action: fixture rework and weld parameter revalidation completed. Secondary control 11.2: D8 closure confirmed after 60 days of clean field performance data.

- D5 corrective action: fixture rework and weld parameter revalidation completed.
- D8 closure confirmed after 60 days of clean field performance data.
- Section 11 review cadence is tracked by Linda Park under Quality Assurance governance.

Control Area	Owner	Target SLA	Verification Status
Quality Assurance	Linda Park	5 business days	Verified
Customer Complaint 8D Report Gate 1	Linda Park	3 business days	Active
Customer Complaint 8D Report Gate 2	Linda Park	10 business days	Monitored
