Supplier Corrective Action Request - Packaging Defect - Section 1: Executive Summary & Scope

Formal corrective action request issued to a packaging supplier following repeated damage found during receiving inspection. Section 1 (Executive Summary & Scope) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Defines the operational charter, scope boundaries, and executive accountability.

Operational requirement 1.1: Containment required 100% inspection of incoming lots for the next three shipments. Secondary control 1.2: Supplier's root cause pointed to an under-specified corner protector on the pallet design.

- Containment required 100% inspection of incoming lots for the next three shipments.
- Supplier's root cause pointed to an under-specified corner protector on the pallet design.
- Section 1 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Supplier Corrective Action R Gate 1	Omar Haddad	3 business days	Active
Supplier Corrective Action R Gate 2	Omar Haddad	10 business days	Monitored

Supplier Corrective Action Request - Packaging Defect - Section 2: Architecture & Process Flow

Formal corrective action request issued to a packaging supplier following repeated damage found during receiving inspection. Section 2 (Architecture & Process Flow) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Maps end-to-end process stages, handoff gates, and system-of-record integrations.

Operational requirement 2.1: Supplier's root cause pointed to an under-specified corner protector on the pallet design. Secondary control 2.2: Corrective action included an updated pallet packaging specification and drop testing.

- Supplier's root cause pointed to an under-specified corner protector on the pallet design.
- Corrective action included an updated pallet packaging specification and drop testing.
- Section 2 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Supplier Corrective Action R Gate 1	Omar Haddad	3 business days	Active
Supplier Corrective Action R Gate 2	Omar Haddad	10 business days	Monitored
Sec-2	Omar Haddad	3 business days	Stage 2 Verified

Supplier Corrective Action Request - Packaging Defect - Section 5: Roles, Responsibilities & RACI

Formal corrective action request issued to a packaging supplier following repeated damage found during receiving inspection. Section 5 (Roles, Responsibilities & RACI) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Clarifies ownership across accountable executives, operational leads, and reviewers.

Operational requirement 5.1: Containment required 100% inspection of incoming lots for the next three shipments. Secondary control 5.2: Supplier's root cause pointed to an under-specified corner protector on the pallet design.

- Containment required 100% inspection of incoming lots for the next three shipments.
- Supplier's root cause pointed to an under-specified corner protector on the pallet design.
- Section 5 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Supplier Corrective Action R Gate 1	Omar Haddad	3 business days	Active
Supplier Corrective Action R Gate 2	Omar Haddad	10 business days	Monitored
Sec-5	Omar Haddad	3 business days	Stage 5 Verified

Supplier Corrective Action Request - Packaging Defect - Section 6: Standard Operating Procedures

Formal corrective action request issued to a packaging supplier following repeated damage found during receiving inspection. Section 6 (Standard Operating Procedures) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Provides step-by-step execution checklists, intake criteria, and verification gates.

Operational requirement 6.1: Supplier's root cause pointed to an under-specified corner protector on the pallet design. Secondary control 6.2: Corrective action included an updated pallet packaging specification and drop testing.

- Supplier's root cause pointed to an under-specified corner protector on the pallet design.
- Corrective action included an updated pallet packaging specification and drop testing.
- Section 6 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Supplier Corrective Action R Gate 1	Omar Haddad	3 business days	Active
Supplier Corrective Action R Gate 2	Omar Haddad	10 business days	Monitored

Supplier Corrective Action Request - Packaging Defect - Section 7: Risk Register & Mitigations

Formal corrective action request issued to a packaging supplier following repeated damage found during receiving inspection. Section 7 (Risk Register & Mitigations) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Catalogs operational, compliance, and delivery risks alongside preventive mitigations.

Operational requirement 7.1: Corrective action included an updated pallet packaging specification and drop testing. Secondary control 7.2: Supplier status remains on the improvement plan pending two clean shipment cycles.

- Corrective action included an updated pallet packaging specification and drop testing.
- Supplier status remains on the improvement plan pending two clean shipment cycles.
- Section 7 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Supplier Corrective Action R Gate 1	Omar Haddad	3 business days	Active
Supplier Corrective Action R Gate 2	Omar Haddad	10 business days	Monitored
Sec-7	Omar Haddad	5 business days	Stage 7 Verified

Supplier Corrective Action Request - Packaging Defect - Section 8: Quality Assurance & Audits

Formal corrective action request issued to a packaging supplier following repeated damage found during receiving inspection. Section 8 (Quality Assurance & Audits) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Specifies sampling frequencies, inspection tolerances, and nonconformance workflows.

Operational requirement 8.1: Supplier status remains on the improvement plan pending two clean shipment cycles. Secondary control 8.2: Containment required 100% inspection of incoming lots for the next three shipments.

- Supplier status remains on the improvement plan pending two clean shipment cycles.
- Containment required 100% inspection of incoming lots for the next three shipments.
- Section 8 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Supplier Corrective Action R Gate 1	Omar Haddad	3 business days	Active
Supplier Corrective Action R Gate 2	Omar Haddad	10 business days	Monitored

Supplier Corrective Action Request - Packaging Defect - Section 10: Cross-Functional Dependencies

Formal corrective action request issued to a packaging supplier following repeated damage found during receiving inspection. Section 10 (Cross-Functional Dependencies) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Documents upstream and downstream team dependencies and service-level commitments.

Operational requirement 10.1: Supplier's root cause pointed to an under-specified corner protector on the pallet design. Secondary control 10.2: Corrective action included an updated pallet packaging specification and drop testing.

- Supplier's root cause pointed to an under-specified corner protector on the pallet design.
- Corrective action included an updated pallet packaging specification and drop testing.
- Section 10 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Supplier Corrective Action R Gate 1	Omar Haddad	3 business days	Active
Supplier Corrective Action R Gate 2	Omar Haddad	10 business days	Monitored

Supplier Corrective Action Request - Packaging Defect - Section 11: Continuous Improvement Roadmap

Formal corrective action request issued to a packaging supplier following repeated damage found during receiving inspection. Section 11 (Continuous Improvement Roadmap) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Schedules quarterly optimization milestones, automation targets, and capability reviews.

Operational requirement 11.1: Corrective action included an updated pallet packaging specification and drop testing. Secondary control 11.2: Supplier status remains on the improvement plan pending two clean shipment cycles.

- Corrective action included an updated pallet packaging specification and drop testing.
- Supplier status remains on the improvement plan pending two clean shipment cycles.
- Section 11 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Supplier Corrective Action R Gate 1	Omar Haddad	3 business days	Active
Supplier Corrective Action R Gate 2	Omar Haddad	10 business days	Monitored

Supplier Corrective Action Request - Packaging Defect - Section 12: Appendix, Lineage & Sign-off

Formal corrective action request issued to a packaging supplier following repeated damage found during receiving inspection. Section 12 (Appendix, Lineage & Sign-off) applies to Supply Chain and Logistics within Manufacturing Knowledge Hub and is maintained by Omar Haddad. Records document lineage, governance metadata, version history, and owner sign-off.

Operational requirement 12.1: Supplier status remains on the improvement plan pending two clean shipment cycles. Secondary control 12.2: Containment required 100% inspection of incoming lots for the next three shipments.

- Supplier status remains on the improvement plan pending two clean shipment cycles.
- Containment required 100% inspection of incoming lots for the next three shipments.
- Section 12 review cadence is tracked by Omar Haddad under Supply Chain and Logistics governance.

Control Area	Owner	Target SLA	Verification Status
Supply Chain and Logistics	Omar Haddad	5 business days	Verified
Supplier Corrective Action R Gate 1	Omar Haddad	3 business days	Active
Supplier Corrective Action R Gate 2	Omar Haddad	10 business days	Monitored
